Re: 10 Sunnyside Avenue, Arlington, MA– Project Eligibility Letter

Dear Ms. Schwarz:

We are pleased to inform you that your application for project eligibility determination for the proposed 10 Sunnyside Avenue project located in Arlington, Massachusetts, has been approved under the Low Income Housing Tax Credit (LIHTC) program. The property is located at 10 Sunnyside Avenue, Arlington, Massachusetts. This approval indicates that the proposed plan is for 43 units of rental housing for families, 43 (100%) of which will be affordable at no more than 60% of area median income. The proposed development will consist of 16 one-bedroom units, 23 two-bedroom units and 4 three-bedroom units. The rental structure as described in the application is generally consistent with the standards for affordable housing to be included in the community's Chapter 40B affordable housing stock. This approval does not constitute a guarantee that LIHTC funds will be allocated to the 10 Sunnyside Avenue project. It does create a presumption of fundability under 760 CMR 56.04 and allows Housing Corporation of Arlington to apply to the Arlington Zoning Board of Appeals for a comprehensive permit. The sponsor should note that a One Stop + submission for funding for this project must conform to all Department of Housing and Community Development (DHCD) program limits and requirements in effect at the time of submission.

As part of the review process, DHCD has made the following findings:

1. The proposed project appears generally eligible under the requirements of the Low Income Housing Tax Credit program.
2. DHCD has performed an on-site inspection of the proposed 10 Sunnyside Avenue project and has determined that the proposed site is an appropriate location for the project. The project consists of the development of housing on the site of a former auto repair shop in a mixed use neighborhood. It is near the Alewife Brook Parkway recreation path and bus service on Broadway.
3. The proposed housing design is appropriate for the site. The 40 units will be built in a single five-story building. The building will have an elevator and aim for Passive House standards. There will be open space, ancillary office space and a community room.

4. The proposed project appears financially feasible in the context of the Arlington housing market. The proposal includes 43 units for households earning up to 60% AMI, with eight of those units to be reserved for households earning at or below 30% of AMI.
5. The initial proforma for the project appears financially feasible and consistent with the requirements for cost examination and limitations on profits on the basis of estimated development and operating costs. Please note again that a One Stop+ submission for funding for this project must conform to all DHCD program limits and requirements in effect at the time of submission.
6. An as-is appraisal has been commissioned. The Low-Income Housing Tax Credit Program Guidelines state that the allowable acquisition value of a site with a comprehensive permit must be equal to or less than the value under pre-existing zoning, plus reasonable carrying costs. If this project applies for funding under the Low-Income Housing Tax Credit Program, the acquisition price in the proposed budget should reflect these program guidelines.
7. The ownership entity will be a single-purpose entity controlled by the applicants and subject to limited dividend requirements. The ownership entity meet the general eligibility standards of the Low Income Housing Tax Credit program. The applicant will need to demonstrate sufficient capacity to successfully develop the project under the Low-Income Housing Tax Credit program.
8. Housing Corporation of Arlington has an option to purchase the site.
9. The Town of Arlington has submitted a letter of support for the project.

The proposed 10 Sunnyside Avenue project will have to comply with all state and local codes not specifically exempted by a comprehensive permit. In applying for a comprehensive permit, the project sponsor should identify all aspects of the proposal that will not comply with local requirements.

If a comprehensive permit is granted, construction of this project may not commence without DHCD's issuance of final approval pursuant to 760 CMR 56.04 (7) and an award of LIHTC funds. This project eligibility determination letter is not transferable to any other project sponsor or housing program without the express written consent of DHCD. When construction is complete, a Chapter 40B cost certification and an executed and recorded 40B regulatory agreement in compliance with DHCD's requirements pertaining to Chapter 40B must be submitted and approved by DHCD prior to the release of a Low-Income Housing Tax Credit form 8609.

This letter shall expire two years from this date, or on March 16, 2025, unless a comprehensive permit has been issued.

We congratulate you on your efforts to work with the town of Arlington to increase its supply of affordable housing. If you have any questions as you proceed with the project, please feel free to call or email Rebecca Frawley Wachtel at (617) 573-1318 or at Rebecca.Frawley@mass.gov.

Sincerely,

A handwritten signature in black ink, appearing to read "Catherine Racer", with a long horizontal flourish extending to the right.

Catherine Racer
